Bio

“Jack” (also known as Samurai Jack), is the alias that was taken by a Japanese prince. His father sealed the evil demon Aku, but was freed when Jack was 8 years old. Once Aku escaped, Jack’s mother went into hiding, and sent Jack around the world to train. He would one day confront Aku and slay the demon. Only to be sent centuries into the future before he would be able to swing the decisive blow.

Over the course of the 50 years, he learned astronomy from a captain, riding horses from a sheikh, staff fighting from a tribe in Africa, was educated by the best scholars in Egypt, learned how to wrestle in Greece, was trained underneath Robin Hood in England, learned axe throwing in Russia, horseback combat in Mongolia, then completed his training in a shaolin temple.
